Aloha,

I believe that before a state can prosper and grow, the people must have confidence in their leaders. They must know that at the core of every decision, there is careful planning and unbending integrity.

Today, the people of Hawai'i enjoy an open and honest state government that has led to economic prosperity. We have increased affordable housing, cared for the homeless, prepared for natural or man-made emergencies, strengthened laws to protect keiki and kupuna, improved access to quality healthcare, enhanced education programs starting at the pre-school level, taken unprecedented action to preserve the environment, and increase our energy self-sufficiency.

For more than 25 years, I have dedicated my life and career to serving the public. I have stood up for those less fortunate, fought for what's right in the name of justice and equality, and partnered with legislators and community members to promote real reform and common sense solutions.

Thanks to so many people, the last four years has produced a proven record of results. But we have only just begun. There is much more we can do.

I am running for re-election to continue the progress already made. Our state has a bright future, and we cannot afford to go backward.

I am running to fight for the next generation, so they will have better schools, better healthcare, quality jobs, and a better place to live, work and raise their families.

I ask for your support in my desire to serve another four years as your Governor. Mahalo.
